

Doing Things Right

Starts with me

Klark Telleen

— Monticello, Iowa

Klark Telleen

It takes a mountain of knowledge to be a livestock farmer. The best way for me to stay informed is a regular review of the Good Neighbor Guide from the Coalition to Support Iowa's Farmers.

The Good Neighbor Guide is a complete A-Z reference tool for farmers wanting to make changes to or add a livestock business. It details all current rules and regulations regarding siting, manure management and protection of the environment. Also included are recommendations from some

of my fellow farmers and other experts on how to be the best neighbor possible to everyone in my community.

The Coalition and the Good Neighbor Guide have been a tremendous help to my family in the identification and implementation of best management practices for our farm. I'm sure they can do the same for you.

To get your Good Neighbor Guide, schedule a no-cost, on-farm visit by calling the Coalition at 1-800-932-2436.
